- Refused: 1
QZ3. The Congressional Budget Office is an office that works for the U.S. Congress to calculate how much each new law is likely to cost the federal government. Before the new health care law was passed in March, the Congressional Budget Office did an analysis. Which of the following would you think was probably their conclusion about what the new health care law will do to the federal government’s debt? Did they say that the new law will probably increase the federal government’s debt, will probably reduce the federal government’s debt, or will not have any effect on the federal government’s debt?

The new law will probably increase the federal government’s debt 65
The new law will probably reduce the federal government’s debt 19
The new law will not have any effect on the federal government’s debt 16
Refused 1

[ASK IF HC1 = OPPOSE STRONGLY, OPPOSE SOMEWHAT OR NEITHER FAVOR NOR OPPOSE]

HC1A. Which of the following best expresses your view of the health care law that Congress passed last March?

I oppose most or all of the changes made by the law 28
I oppose a few of the changes made by the law 20
I favor most or all of the changes made by the law, but I think that law doesn’t do enough to improve the health care system 23
I oppose the law because I think the federal government should not be involved in health care at all 28
Refused 1

[ASK IF HC1 = FAVOR STRONGLY, FAVOR SOMEWHAT OR NEITHER FAVOR NOR OPPOSE]

HC1B. Do you think that the health care law passed last March by Congress should have done more to change the health care system, or do you not think that?

It should have done more 61
Do not think that 36
Refused 3

HC2. How much, if at all, should the health care system in the United States be CHANGED from what it was like in February, 2010, before Congress passed the law to change the system? Would you say it should be changed...

A great deal 17
A lot 22
A moderate amount 35
A little 16
Not at all 9
Refused 1
HC3. How do you think the health care system in America should be changed? Please type as much
detail as you can below

[OPEN-ENDED]

METHODOLOGY

The survey was conducted using the web-enabled KnowledgePanel®, a probability-based Panel designed to be representative of the U.S. population. Initially, participants are chosen scientifically by a random selection of telephone numbers and residential addresses. Persons in selected households are then invited by telephone or by mail to participate in the web-enabled KnowledgePanel®. For those who agree to participate, but do not already have Internet access, Knowledge Networks provides at no cost an Internet appliance and Internet service connection. People who already have computers and Internet service are permitted to participate using their own equipment. Panelists then receive unique log-in information for accessing surveys online, and then are sent emails three to four times a month inviting them to participate in research. More technical information is available at http://www.knowledgenetworks.com/ganp/reviewer-info.html.

ABOUT KNOWLEDGE NETWORKS

Knowledge Networks delivers quality and service to guide leaders in business, government, and academia – uniquely bringing scientifically valid research to the online space through its probability-based, online KnowledgePanel®. The company delivers unique study design, science, analysis, and panel maintenance, along with a commitment to close collaboration at every stage of the research process. Knowledge Networks leverages its expertise in brands, media, advertising, and public policy issues to provide insights that speak directly to clients’ most important concerns. For more information about Knowledge Networks, visit www.knowledgenetworks.com.
