

ASSOCIATED PRESS

RESILIENCE IN THE WAKE OF SUPERSTORM SANDY

A survey conducted by The Associated Press-NORC Center for Public Affairs Research
with funding from The Rockefeller Foundation

Interview dates: April 19 – June 2, 2013;

Interviews: 2,025 adults nationwide

*(1,007 adults from areas of New York & New Jersey affected by Superstorm Sandy;
1,018 adults from the rest of the United States)*

Margin of error: +/- 4.0 percentage points at the 95% confidence level

+/- 4.7 percentage points for those in the affected areas

+/- 4.2 percentage points for those in the rest of the U.S.

NOTE: All results show percentages among all respondents, unless otherwise labeled.

PREPAREDNESS AND NATIONAL IMPACT

- P1. We are interested in your opinion about how likely it is that the area where you live will be impacted by different kinds of disasters that could cause serious destruction or loss of life. For each of the following... please tell me if it is extremely likely, very likely, moderately likely, not too likely, or not likely at all that the area where you live will be impacted by that type of disaster in the next FIVE YEARS.**

SCREEN1. Local areas may have specific concerns related to natural disasters and emergencies. We would now like to ask you a few questions to help us understand your local concerns.

On October 29, 2012, were you living at the same address as you live today, or have you moved since then?

[Respondent told we are interested in a weather-related event that occurred on this date if they inquire. If respondent asks if that is the date when Superstorm Sandy hit, they were told it was.]

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Living at the same address	94	88	89
Moved since then	6	11	11
Don't know	-	*	*
Refused	*	*	*

SCREEN2 – SCREEN4. Collected respondent’s ZIP code or county information for their primary residence on the day Superstorm Sandy hit the U.S., October 29th, 2012. Respondents living in the affected areas within the following New York and New Jersey counties at the time Superstorm Sandy hit the U.S. were included in the affected region sample.

SCREEN5. County of residence for respondents in the NY and NJ Regional Oversample

	Affected NY and NJ Regional Sample
NEW JERSEY	
Atlantic	2
Bergen	5
Cape May	1
Essex	5
Hudson	5
Middlesex	6
Monmouth	5
Ocean	4
Union	5

Don't know	-	-	-
Refused	*	*	*

D11. Aside from weddings and funerals, how often do you attend religious services? Would you say more than once a week, once a week, once or twice a month, a few times a year, less often than a few times a year, or never?

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
More than once a week	7	13	13
Once a week	22	24	23
Once or twice a month	14	11	11
A few times a year	22	20	20
Less often than a few times a year	12	13	13
Never	22	19	19
Don't know	*	1	1
Refused	*	*	*

D12. Are you of Hispanic, Latino, or Spanish origin? PROMPT IF NECESSARY: For Example, Mexican, Mexican American, Puerto Rican, Cuban

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Yes	22	14	15
No	77	84	84
Don't know	*	*	*
Refused	1	1	1

Asked of those who said "Yes" in D12

D13. In addition to being of Hispanic, Latino, or Spanish origin what race or races do you consider yourself to be? [DO NOT READ. ACCEPT MULTIPLE RESPONSES.]

Asked of those who said "No," "Don't know," or "Refused" in D12

D14. What race or races do you consider yourself to be? [DO NOT READ. ACCEPT MULTIPLE RESPONSES.]

ASKED ONLY IF RESPONDENT NEEDS "PROMPTING," INTERVIEWER SHOULD READ: Are you White, Black, Asian or some other race? RESPONSES CODED INTO MATRIX BELOW.

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
White, Caucasian	51	63	63
Black, African-American, Negro	17	10	11
American Indian, Alaska Native	*	4	3
Asian Indian	2	1	1
Native Hawaiian	-	1	1
Chinese	1	*	*
Guamanian or Chamorro	-	-	-
Filipino	*	*	*
Samoan	-	-	-
Japanese	*	*	*
Korean	-	*	*
Vietnamese	-	*	*
Other Asian	2	1	1
Other Pacific Islander	1	*	*
[VOL] Spanish, Hispanic, or Latino	22	14	15
Some other race [SPECIFY]	1	1	1
Don't know	*	1	*
Refused	2	4	4

D16. How many different cellphone numbers, if any, could I have reached you for this call?

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
0	17	16	16
1	73	72	72
2	7	9	9
3	1	2	2
4	*	1	1
5 or more	*	1	1
Don't know	*	*	*
Refused	1	1	1

D17. How many different landline telephone numbers, if any, are there in your home that I could have reached you on for this call? This includes listed or unlisted numbers. To answer this question, please don't count cellphones or landlines used *only* for faxes or modems.

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
0	23	35	34
1	72	61	61
2 or more	5	3	3
Don't know	-	*	*
Refused	*	1	1

ASKED ONLY OF THOSE WHO DID NOT SAY "0" IN D16 OR D17.**D18. Generally speaking, would you say you use your landline phone most of the time, your cellphone most of the time, or would you say you use both about equally?**

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Landline	19	22	22
Cellphone	57	49	50
Both equally	25	29	28
Don't know	-	-	-
Refused	-	-	-

D18A-D18BB held for future release.

ASKED ONLY OF CELLPHONE RESPONDENTS

D19. How many adults, in addition to you, carry and use this cell phone at least once a week or more?

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
0	48	49	49
1	32	35	35
2 or more	19	15	15
Don't know	*	-	-
Refused	1	1	1

D20. Does your total household income fall below \$50,000 dollars, or is it \$50,000 or higher?

INTERVIEWER NOTE: IF ASKED, THIS IS 'YEARLY' HOUSEHOLD INCOME

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Below \$50,000	43	48	48
\$50,000+	49	44	45
Don't know	3	2	2
Refused	6	6	6

ASK IF "BELOW \$50K" IN D20

D21. And in which group does your total household income fall?

ASK IF "\$50K OR HIGHER" IN D20

D22. And in which group does your total household income fall?

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Under \$10,000	8	10	10
\$10,000 to under \$20,000	11	9	9
\$20,000 to under \$30,000	8	12	12
\$30,000 to under \$40,000	7	10	10
\$40,000 to under \$50,000	6	8	8
\$50,000 to under \$75,000	13	17	17
\$75,000 to under \$100,000	11	13	13
\$100,000 to under \$150,000	12	7	7
\$150,000 or more	11	7	8
Don't know	6	2	2
Refused	6	4	4

D24. INTERVIEWER RECORD GENDER [IF UNSURE, ASK THE FOLLOWING: Are you male or female?]

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Male	47	48	48
Female	53	52	52
Don't know	*	-	*
Refused	-	-	-

MARITAL. Marital status (COLLECTED IN A CALLBACK)

	Affected NY and NJ Regional Sample	Rest of the U.S. Sample	Total National Sample
Married	40	48	47
Living as married / co-habiting	3	5	5
Separated	2	3	3
Divorced	9	7	7
Widowed	4	3	3
Never married	26	21	22
Don't know	*	*	*
Single person household, not collected	15	12	12
Refused	1	1	1

About the study

This survey was conducted by The Associated Press-NORC Center for Public Affairs Research with funding from The Rockefeller Foundation. The survey was conducted from April 9 through June 2, 2013. AP and NORC staff collaborated on all aspects of the study, with input from NORC's Public Health Research department; Security, Energy, and Environment department; and AP's subject matter experts.

This nationally representative survey was conducted via telephone with 2,025 American adults, including an oversample of 1,007 adults residing in the Superstorm Sandy affected region at the time of the storm. The affected region was defined as the 16 counties in New York and New Jersey listed in the table below. These 16 counties all received a FEMA impact rating of "very high" based on a composite indicator of wind, storm surge, and precipitation. Eligibility for the survey was defined as any adult who lived in the targeted counties on October 29, 2012. To define the sample frame for selection of individuals most likely to have high levels of impact, the sample was stratified at the Census tract level based on the density of geocoded FEMA loan applications. Tracts with five or more loan applications near other tracts with five or more loan applications were defined as the most severely impacted areas, as illustrated in the map below.

Our sampling frame is constructed from two sources. First, we identify the landline telephone exchanges for which a majority of listed telephone numbers is located within the tracts in question. The second part of our sampling frame consists of cellular rate centers that are themselves situated mostly within the "very high" tracts; it is clear that some degree of error is introduced by respondents who reside in areas not associated with their mobile telephone numbers. Location within the "very high" area during the interview is determined by associating the ZIP code for the respondent's primary residence on October 29, 2012, with the set of tracts in question.

List of Counties Affected by Superstorm Sandy

County FIPS Code	State	County	County FIPS Code	State	County
34001	New Jersey	Atlantic	36005	New York	Bronx
34003	New Jersey	Bergen	36047	New York	Kings
34009	New Jersey	Cape May	36059	New York	Nassau
34013	New Jersey	Essex	36061	New York	New York
34017	New Jersey	Hudson	36081	New York	Queens
34023	New Jersey	Middlesex	36085	New York	Richmond
34025	New Jersey	Monmouth	36103	New York	Suffolk
34029	New Jersey	Ocean			
34039	New Jersey	Union			

Map of the Affected Region

The final response rate for the national sample was 13 percent, based on the widely accepted Council of American Survey Research Organizations (CASRO) method. Under this method, our response rate is calculated as the product of the resolution rate (67 percent), the screener rate (32 percent), and the interview completion rate (61 percent).

The overall margin of error for the national sample was +/- 4.0 percentage points. The margin of error for the affected region sample was +/- 4.7 percentage points. The margin of error for the sample in the unaffected region was +/- 4.2 percentage points. Sampling weights were calculated to adjust for sample design aspects (such as unequal probabilities of selection) and for nonresponse bias arising from differential response rates across various demographic groups. Poststratification variables included age, sex, race, region, education, and landline/cell phone use. The weighted data, which thus reflect the U.S. general population aged 18 years old or older, were used for all analyses. The weighted data also reflect the two sub-populations of interest, adults living in the Superstorm Sandy affected areas on October 29, 2012, and adults living in the rest of the United States.

A survey analysis is available on the AP-NORC Center for Public Affairs Research website:
www.apnorc.org.

The authors would like to acknowledge Rebecca Reimer, Emily Alvarez, Daniel Malato, and Molly Jones of NORC and Dennis Junius of The Associated Press for contributions to the data analysis and report writing. Ned English, Susan Hinkins, and Wei Zeng from NORC designed and executed the sampling approach. Jenny Kelly, Kate Hobson, and Dan Costanzo managed the telephone data collection at NORC.

About The Associated Press-NORC Center for Public Affairs Research

The AP-NORC Center for Public Affairs Research taps into the power of social science research and the highest-quality journalism to bring key information to people across the nation and throughout the world.

- The Associated Press is the world's essential news organization, bringing fast, unbiased news to all media platforms and formats.
- NORC at the University of Chicago is one of the oldest and most respected, independent research institutions in the world.

The two organizations have established the AP-NORC Center for Public Affairs Research to conduct, analyze, and distribute social science research in the public interest on newsworthy topics, and to use the power of journalism to tell the stories that research reveals.

The founding principles of the AP-NORC Center include a mandate to carefully preserve and protect the scientific integrity and objectivity of NORC and the journalistic independence of The Associated Press. All work conducted by the Center conforms to the highest levels of scientific integrity to prevent any real or perceived bias in the research. All of the work of the Center is subject to review by its advisory committee to help ensure it meets these standards. The Center will publicize the results of all studies and make all datasets and study documentation available to scholars and the public.
